

FWPCOT2239 Trim and Cut Felled Trees

Our course comprising one day of theory and one day of hands-on operation. It provides detailed instruction on how to trim and cut felled trees, and deal with typical hazards encountered in a forest or bushland setting. The course also covers basic chainsaw maintenance and sharpening. The second day of training is carried out in the forest, where participants are given extensive practical experience in cutting and boring techniques. Duration 2 days.
