

RIIWHS202D Enter and work in confined spaces

Confined spaces poses dangers because they are usually not designed to be areas where people work. Confined spaces often have poor ventilation which allows hazardous atmospheres to quickly develop, especially if the space is small. The hazards are not always obvious and may change from one entry into the confined space to the next. A confined space means an enclosed or partially enclosed space that:

- Is not designed or intended primarily to be occupied by a person
- Is, or is designed or intended to be, at normal atmospheric pressure while any person is in the space
- Harmful concentrations of any airborne contaminants
- Is likely to be a risk to health and safety from:
 - An atmosphere that does not have a safe oxygen level
 - Contaminants, including airborne gases, vapours and dust, that may cause injury from fire or explosion
- Engulfment

Requirements

- Participants must wear steel capped footwear. STO can provide Hi Visibility Clothing and Hard Hats. For any specific PPE requirements please contact STO
- English language skills need to be sufficient to understand and comprehend written and verbal instructions
- Numeracy skills are needed to interpret calculations and formulas

Content

- Identify WHS Acts and Regulations, Australian Standards and Codes of Practice
- Identify confined spaces
- Hazard identification and risk assessment, exposure standards and consultation
- Equipment inspections, atmospheric testing, entry permits and reporting
- Confined Space Entry, Access, egress, height safety

Certification

On successful completion of this course, participants will be issued with a Statement of Attainment for **Enter and work in confined spaces – RIIWHS 202D**

Additional courses can be scheduled on demand please contact STO for further information

Time: 8am – 4pm Venue: Unit 15 – 16 Hopkins Street, Eden, NSW, 2551 Cost: \$525
